

Memorandum

Subject Appreciation for Assistance to DEA	Date 10-02-2013
---	--------------------

To

William Matthews
Director
Southwest Regional Computer
Crime Institute

From

Cliff Lark
Special Agent
Drug Enforcement Administration
St. George Post of Duty

I will be retiring shortly but wanted to leave you with my appreciation for all the work the Computer Crime Institute has done for our office. I don't think I could begin to count the number of telephones you've downloaded for us, many of which were password protected or were otherwise inaccessible to us. The work you've done has been of great value to our investigations. Through your telephone downloads, we've developed numerous leads to other drug investigations. The downloads have also contained valuable evidence which I believe has played into the considerations of defendants as they have entered guilty pleas. I know that other agents in my office will continue to use your services, and I will recommend the Computer Crime Institute to DEA agents in Salt Lake City when I start my new contract position there.
